

# National Check Network

*Protect your business!*

*Keep the cash in YOUR pocket!*

*Avoid bank NSF charges!*

*Know who to trust!*

*Sleep at night!*

### How it works:

Each time you scan your check into TeraCash, you will be given an option on that same screen in which you can optionally click on **Verify Check**.

CheckGuard will automatically verify the check and customer information against the National Check Network and the ATM Verify Network and report back if the check has any negative reports on it or if there are not enough funds in that account to cover this check. This service will also check our headquarters database for any known issues with the check and customer as well.

### Cost:

There is a monthly maintenance fee of \$60.00 with an additional charge of 30¢ each time you choose to verify a particular check.

\*A refundable retainer may be required for this service.

## ATM / ACH Verify

*Is the money available now?*

*Is this check covered?*

*Does the account even exist?*

*Rest assured! You're safe!*

CheckGuard also comes with OFAC and company lookups as well!
